Subject: To Ms. Thu

Hi Co Thu,

I'm am very very happy when I received this email from Co Sen. I'm proud of our school too much, now I can talk louder to everybody: "I am graduated from Saigon Tech," I believe that our school will develop more and more in the future.

When I get a job, I recognize that our school has very good environment, SaigonTech creates all the condition for us to study. However at that time, I didn't take full the advantage of all opportunities to improve my knowledge. If God gave me a chance to study from the beginning, I would choose SaigonTech again.

During my study at SaigonTech, some of my friends used to complain about our school, such as high tuition, bad method, etc., something like that. So why did they continue to study at SaigonTech while they were disappointed about the school? But now I see the true value of our degree, I have a lot of self-confidence because I graduated from an American style education. SaigonTech teaches me not only the knowledge of specialty, but also the knowledge of society. This is the most important thing that I study from SaigonTech. If a student graduated from a Vietnamese University, I ensure that he/she cannot compare with our students.

Last time I asked you about studying Bachelor of Business Administrator at SaigonTech, now I want to study more to improve my knowledge and skill. Would you please tell me about our school's plan in offering BBA for graduated student?

Please let me know if you have any information.

Regards,

Thanh Lac.

P.S.: Some feelings about our school, I hope that you will have more confidence in developing our school.

Subject: [students] Official Groundbreaking Ceremony to launch the construction of the new SaigonTech building

Dear students,

Please be advised that the Official Groundbreaking Ceremony to launch the construction of the new SaigonTech building will take place on 14 June 2006.

Location: Quang Trung Software city, Dist.12, HCMC.

Site/Building: 16,000 square meters; 4,500 student capacity. This international standard building is expected to be in operation as of 2007 and 2008.

For further information about the new building, please visit our website or click this link:

[http://www.saigontech.edu.vn/vietnamese/news\\_new-building.jsp](http://www.saigontech.edu.vn/vietnamese/news_new-building.jsp)

Best regards,  
Le Thi Sen
